

International LIDILE Week: A celebration of linguistic and cultural diversity in the virtual world of RENNES2D

We are pleased to invite you to the international LIDILE week, which will take place from 14 to 18 October 2024. This event promises to be a celebration of linguistic and cultural diversity, with a series of co-construction activities on the RENNES2D virtual world.

Hackathon - Creation of educational Escape rooms

One of the key events this week will be the hackathon to create an educational escape game in the virtual world of RENNES2D. This hackathon will enable participants to work together to design digital educational escape games that promote language acquisition. Teams will work together to create immersive and interactive scenarios that not only entertain, but also teach. This project will demonstrate how the RENNES2D virtual world can be used to make language learning more immersive and effective.

Game Design workshop with Ikigai

We are delighted to welcome Ikigai for a game design workshop. This workshop will offer participants the opportunity to explore the principles of game design and discover how these principles can be applied to language learning. Participants will learn how to design educational games that captivate and motivate learners, while enhancing their language skills.

Activity "Jeu(x) en Langue(s)" with Gaël Zanol from the CIREFE

Another exciting activity will be the 'Jeu(x) en Langue(s)' workshop led by Gaël Zanol and CIREFE. This workshop will highlight the importance of games in language learning. Participants will discover how games can be used to create interactive and stimulating learning environments, promoting language acquisition in a fun and engaging way.

Erasmus Days : An Online International Podcast

One of the highlights of the week will be the international online podcast organised as part of Erasmus Days. This podcast will bring together students, teachers and professionals from different countries online to discuss the challenges and opportunities of language learning and interculturality. Participants will share their personal and professional experiences, offering a global perspective on the importance of linguistic and cultural diversity in our interconnected world.

Participation of the INTERCULTURAL VIRTUAL SOCIETAL CHALLENGE (IVSC)' international partners

The international LIDILE week will also see the active participation of the IVSC project's international partners. These partners will bring a rich variety of perspectives and expertise, enriching the discussions and activities. Their commitment will underline the importance of international collaboration in promoting linguistic and cultural diversity.

COME AND JOIN US!

International LIDILE Week will be a unique opportunity to celebrate and promote linguistic and cultural diversity. Whether through the hackathon to create an educational escape game, the game design workshop with Ikigai, the activity 'Jeu(x) en Langue(s)' with Gaël Zanol and CIREFE, the international online podcast or the participation of the international partners of the IVSC project, this event will demonstrate the importance of interculturality and innovation in education. By bringing together participants from all over the world, the LIDILE International Week will create a space where languages and cultures can be explored, appreciated and shared, contributing to a more inclusive and interconnected world.
